

# laptop armor™

padded hard cases for your laptop

bring it on.

#### Stylish laptop protection.

Stylish and rugged, Laptop Armor hard cases are designed to give your notebook computer real protection from the catastrophic impact of a fall, and look great doing it.

#### Drop tested.

We don't recommend that you do this with your laptop, but to test how well Laptop Armor performed, we dropped one of ours 10 feet (3 m) off a 2nd floor ledge onto concrete. Both laptop and Armor survived!

#### Hard exterior, soft interior.

The key to Laptop Armor's protective capability is the combination of a hard outer shell and a padded foam interior. The patented **Corner Protection System™** surrounds the edges of your laptop with multiple layers of foam, insulating it from the outer shell of the case. In the event of a fall, the hard outer shell absorbs most of the impact, while the Foam Spacers cushion your laptop and keep its fragile corners away from the collision.

#### Pocket and file storage.

Laptop Armor cases have magazine/ file folder storage plus 3 pockets: one large pocket for your power adapter and cables, a smaller pocket to stow a mouse or iPod/MP3 player, and a tall one to hold your sunglasses and pens or pencils.

#### Shoulder strap.

All models include a padded, removable shoulder strap.

Aluminum models have a beautiful metallic finish and modern styling. Available in 3 colours, they offer practical protection and rugged good looks.

The Black Leatherette Laptop Armor's hard outer shell is made from a specially formulated synthetic EVA material, similar in appearance and feel to nubuck leather, but much stronger. It is easy to clean and essentially maintenance free. A rugged metal frame adds strength and rigidity, while still remaining lightweight.

*Internal case dimensions are actually 1.25" (3.2 cm) thicker than indicated by Maximum Laptop Size values. This is in order to accommodate a power adapter and other accessories.				

#### Custom fit to your laptop.

Laptop Armor's patented Foam Spacer design is adjustable to custom fit virtually any size laptop or notebook computer. Velcro-backed Foam Spacers are used to re-size the inside of the case, matching it to the size and shape of your laptop, ensuring a snug fit.
